

PME8.2 Flexnet 用默认用户名和密码登陆失败

问题描述:

PME8.2 Flexnet 用默认用户名和密码登陆失败

注意：以下方法仅适用于 PME8. X

解决方案:

步骤如下:

1. 参考如下路径打开文件 `conf`

`C:\ProgramData\Schneider Electric\Floating License Manager\FLEXnet Publisher License Server Manager\conf`

2. 备份'server.xml'到其他路径, 用编辑器 (如 **Notepad**) 打开此文件, 搜索 `lastName="Administrator"`, 用如下内容替换原内容 `id="admin" lastName="Administrator" password="(ENC-01)AxIKxBaCLbp4iPFsjJ6eOFtE+qoJWH8ThHIKN9DgdEgILS9j" passwordExpired="false"`, 保存

修改前:

```

38 <accessControl sessionTimeout="1800">
39 <user firstName="System" id="admin" lastName="Administrator" password="(ENC-01)Xjld0Xmfp7FouruoW6n6dyYz+Ch4nlR+DhV6BTkrHichyH52" passwordExpired="true" privileges="admin" type="local-admin"/>
40 <user firstName="Alert" id="alerter" lastName="Service" password="(ENC-01)IO03EVsGvvIL8LOiV3gele9RvQrWtZ0ayz4DIWsCEjQaid" passwordExpired="false" privileges="admin.alerter" type="local-alerter"/>
41 </accessControl>

```

修改后:

```

38 <accessControl sessionTimeout="1800">
39 <user firstName="System" id="admin" lastName="Administrator" password="(ENC-01)AxlKxBsCLUp4iPFsJ6eQfTb+qoJw8ThiIK9p9dEgILS9j" passwordExpired="false" privileges="admin" type="domain-admin"/>
40 <user firstName="Alert" id="alerter" lastName="Service" password="(ENC-01)IO03EVsGvvIL8LOiV3gele9RvQrWtZ0ayz4DIWsCEjQaid" passwordExpired="false" privileges="admin.alerter" type="local-alerter"/>
41 </accessControl>

```

3. 重启"lmadminSchneider"服务

4. 用如下账号登陆 Flexnet

用户名: admin

密码: admin
